<b>Description</b>			
To reproduce the bellow issue:			
<ul style="list-style-type: none"><li>Sort the issues by parent task</li><li>Resize the screen until the Assignee goes also on two lines</li><li>Have at least on parent issue with a subject on two lines</li><li>Have a child issue with a short subject.</li></ul>

The attached patch fixes this.

I chose to change from top to middle for all <code>table.list td</code> because I don't see any side effect of this change. If it's not ok, i can update the patch to target only the <code>table.list.issues td</code>
