Redmine - Defect #24000

z-index children menu should be greater than content

2016-10-05 09:57 - Kirill Ponomarev

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	3.3.2			
Resolution:	Fixed		**Affected version:**	

Description

In Redmine 3.3.0.stable.15884 we have:

```
#main-menu .menu-children {
  z-index:1;
}

#content {
  z-index: 10;
}
```

It should be:

```
#main-menu .menu-children {
  z-index: 11;
}
```

Please explain more details about what the current problem is and what you expect.

#3 - 2016-10-26 03:12 - Makoto Kawasaki

Some uses have a problem that #conten element is over .menu-children element.
https://github.com/makotokw/redmine-theme-gitmike/issues/31#issuecomment-255307502

I have never seen this problem in my environment.

- File 0001-setting-z-index-of-project-menu-drop-down-to-45-abov.patch added

I agree that a z-index of 1 may be too low given the fact that #content has a z-index of 10.

I am setting the z-index to 45 now, which is above context menus but below modals which I think would make sense.

Could someone please try the attached patch and see if the problem with said theme is still reproducible?

Terrific! Tested and works in the following themes: default, classic, gitmike, flatly light, circle, a1, alternate

#6 - 2016-10-26 14:55 - Jan from Planio www.plan.io

- Target version set to Candidate for next minor release

Thanks for testing, I am setting this as a candidate for the next bugfix release then.

#7 - 2016-10-27 18:00 - Toshi MARUYAMA

- Target version changed from Candidate for next minor release to 3.3.2

#8 - 2016-11-18 09:23 - Jean-Philippe Lang

- Status changed from New to Resolved

- Assignee set to Jean-Philippe Lang

- Resolution set to Fixed

Fix committed, thanks.

#9 - 2016-12-03 09:39 - Jean-Philippe Lang

- Status changed from Resolved to Closed
