Target version:				
Resolution:	Invalid		**Affected version:**	

Description
Before I writed some APIs in plugins folder, they work well with redmine version 2.5.2.   But after I upgraded redmine version 3.3.0 then these APIs don't still work. I don't know why?   Could you help me?

History

#1 - 2016-10-11 13:05 - Toshi MARUYAMA

- Status changed from New to Closed

- Priority changed from High to Low

- Resolution set to Invalid
