Description

Hello, our team is using Redmine 3.30 and git as VCS.
GitExtension is the default git client.

Recently, we changed our project text formatting from Textile to Markdown, the problem happened:

The commit message in 'Repository' will rendered as Markdown format as well.

Reason:

When merging a branch in GitExtension, it will automatically generating a commit message like the following:

```
# Conflicts:
#    path/to/conflict/file
#    path/to/conflict/file
#    path/to/conflict/file
```

Compared with some other website(such as GitHub, Gitlab etc...)

They didn't treat these commit message as Markdown, just raw plain text.

Environment:
Redmine version   3.3.0.stable
Ruby version   2.2.5-p319 (2016-04-26) [x86_64-linux]
