Description
Hi,
I am using Redmine Recent version(Redmine 8)
I want to Implement the excel export feature in this.I am using RailsXLS Plugin for exporting the database results to excel file
I have downloaded RailsXLS Plugin and placed it in vendor plugins directory
I have used the same sample code provided by RailsXLS document.i Have created the rxls file as my view file
But after installing RailsXLS Plugin,I am unable to start my webrick server in my local system
I says some dependencies error in activesupport lib file in Rails folder of vendor
I want to use the excel export facility.So please guide me in this issue

You'd better ask the RailsXLS developpers how to use their plugin.

#2 - 2010-05-14 22:40 - Fri Flaj

- Status changed from New to Resolved

#3 - 2010-08-26 00:35 - Eric Davis

- Due date deleted (2008-12-31)

- Category changed from Plugin API to Plugin Request

- Status changed from Resolved to Closed

- Priority changed from Urgent to Normal
