

Redmine - Defect #24104

Filter "in the past days"

2016-10-19 14:40 - Neto Foltz

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.0
Resolution:	Invalid		
Description			
<p>Hi, using the filter "in the past days" to get time tracking reports, when someone register a spent time today, the report shows hours from yesterday. Instead it, if no one do a register of time today, the system just show hours from day before yesterday.</p> <p>Redmine version 3.3.0.stable Ruby version 2.2.2-p95 (2015-04-13) [x86_64-linux] Rails version 4.2.6</p>

Please describe more details.

#2 - 2016-10-19 21:02 - Neto Foltz

Let's imagine today morning (oct 19).

Every morning, I get a report of time tracking using the filter "in the past days". At this time, when I take the report, if nobody did a new time register today (oct 19), the report show data until oct 17.

At moment that someone do a new time register for today (at oct 19), if I get the same report, with same filters, then I can see hours from oct 18.

What value is "in the past days"?

Every morning, I get a report of time tracking using the filter "in the past days". At this time, when I take the report, if nobody did a new time register today (oct 19), the report show data until oct 17.

I think it is expected behavior if you use **3** "in the past days".

I think it is expected behavior if you use **3** "in the past days".

I don't know how the values are sorted or indexed in each language. But if you see this 2 images, maybe it easier to identify what value I'm using.

If it is a expected behavior, may cause some wrong interpretations in the beginning of the day.

I can to ask someone who pointed hours yesterday to point it again if no one register some hour today.

#5 - 2016-10-22 15:06 - Toshi MARUYAMA

I think "1 in the past days" includes today and "2 in the past days" includes today and yesterday.

OK, we gonna use these two filters.

Let's finish this issue.

Thaks for all.
