

Redmine - Feature #24187

exporting CSV issues in only web page

2016-10-27 17:32 - Shamsur Rahim

Status:	New	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:			

Description

Steps to reproduce:

1. Goto <http://www.redmine.org/projects/redmine/issues>
2. Download the issues in CSV format.
3. Now change the page number.
4. Download the issues of the new pages in CSV format.
5. Observe that the previous file and new file contain the same data but it should be different.

I need the data very urgently for **research purpose**. If it's not possible to fix the bug immediately then would you please provide all the issues information in CSV format?

History

#1 - 2016-10-27 17:43 - Toshi MARUYAMA

- Tracker changed from Defect to Feature
- Subject changed from Exporting Issues in CSV format is not working- Repeating same data to exporting CSV issues in only web page
- Category changed from Files to Issues
- Priority changed from Urgent to Low

I need the data very urgently for **research purpose**. If it's not possible to fix the bug immediately then would you please provide all the issues information in CSV format?

Is it possible to provide the data?

#3 - 2016-10-28 07:07 - Go MAEDA

Shamsur Rahim:

You can get issues in XML format instead.

- <http://www.redmine.org/projects/redmine/issues.xml?limit=100&offset=0>
- <http://www.redmine.org/projects/redmine/issues.xml?limit=100&offset=100>
- <http://www.redmine.org/projects/redmine/issues.xml?limit=100&offset=200>
