

Redmine - Patch #24189

Time entry form - limit issue autocomplete to already selected project

2016-10-28 10:06 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:	3.4.0		
<b>Description</b>  When creating a new time entry via /time_entries/new (that is, outside the scope of a project), the issue autocompleter always searches across all projects of the user, even if a project has already been selected in the dropdown above. Selecting an issue of another project here will lead to a validation error and should therefore prevented by only offering issues of the selected project.  The attached patch developed at <a href="#">Planio</a> solves this by providing the autocompleter with a function (instead of the static URL), which dynamically constructs the scope and project_id parameters according to the user's project selection.

Time entry form - limit issue autocomplete to already selected project (#24189).

Patch by Jens Kraemer.

History

#1 - 2016-11-17 01:33 - Go MAEDA

- Target version set to 3.4.0

This patch works fine for me. The candidates displayed on the screen is only the issues of the selected project.  
Setting target version to 3.4.0.

#2 - 2016-12-16 09:43 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang

Committed, thanks.

#3 - 2016-12-16 09:43 - Jean-Philippe Lang

- Subject changed from time entry form - limit issue autocomplete to already selected project to Time entry form - limit issue autocomplete to already selected project
