Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

Hi,

I creat the Redmine enviroment in Windows Server2012 R2.
In the "New issue",there're a lot of "custom fields" which I have created in "setting".
But now I want to change the position of the default fields and the custom fields for the feeling.

For example (I put the picture in Files)
now picture.JPG (default model)
hope changed.JPG (hope model)

How should I do for my Redmine?Should I change source code?

History

#1 - 2016-10-30 19:26 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Invalid
