Redmine - Defect #2422

functional test error - RepositoriesController / test_committers

2008-12-31 09:27 - yves dufour

Status:	Closed		**Start date:**	2008-12-31
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	

Description

in this test , we add a commit with an unknown user... :committer => 'foo'
running the test leads to an error :
ActiveRecord::RecordNotFound: Couldn't find User with ID=0

u d *+= User.find(additional_user_ids) unless additional_user_ids.empty?*

additional_user_ids is not empty .. (contains 0) and we got the error..

could override it with :

u d *+= User.find(additional_user_ids) unless additional_user_ids.empty? || additional_user_ids.include?(0)*

but not sure it's fine...

History

#1 - 2009-01-03 14:00 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

u d += User.find(additional_user_ids) unless additional_user_ids.empty?

I don't see this code anywhere in the app.
