**Description**

assert_tag :tag => 'div', :attributes => { :class => /error/ },
:content => /can not be annotated/
leads to an error ..

should use the flash assertion

assert flash[:error], 'can not be annotated'

## History

**#1 - 2009-01-03 14:28 - Jean-Philippe Lang**

*- Status changed from New to Closed*

     assert flash[:error], 'can not be annotated'

The assertion passes but it doesn't do what you expect.

You may want to read the doc of the assert method:
http://www.ruby-doc.org/stdlib/libdoc/test/unit/rdoc/classes/Test/Unit/Assertions.html#M004506

Anyway, I don't get any error. So please post the error/failure log.

**#2 - 2011-08-23 17:27 - Etienne Massip**

*- Category set to SCM*
