Description

So roadmaps is pretty good, but it would be nice to have the ability to add a issue regarding the version on the roadmap page itself.

kinda like here

In Redmine 3.3.0 you can add an issue from the global menu button. Please see #15880 for more details.

#2 - 2016-11-24 04:50 - Toshi MARUYAMA

- Tracker changed from Defect to Feature

- Status changed from New to Needs feedback

Although we can add a issue by using global "+" button, but target version is not set by default.
I think #5005 is similar request.
