I cannot reproduce on vanilla Redmine [3.3.1](#).

#2 - 2016-11-24 10:31 - Dave Holyfield

I'm not sure what might cause it, but if I change:

```
<a onclick="$(&quot;#block-form&quot;).submit()" class="icon icon-add" href="#">Add</a>
```

to:

```
<a onclick="$(&quot;#block-form&quot;).submit()" class="icon icon-add" href="javascript:;">Add</a>
```

it works fine!

Maybe it's wise to update the code, and use javascript:; instead of link # ?

#3 - 2016-11-26 09:54 - Jean-Philippe Lang

Could you try [r15998](#) instead of the proposed fix? Thanks.

#4 - 2017-04-09 08:34 - Marius BĂLTEANU

I think that we can close this issue. My page supports now inline editing of the blocks (3.4.0).
