Description

The attached patch adds the following changes:

1. a new tab in the application settings named "Time tracking"
2. new settings to make the issue and/or comment fields mandatory for time logs. By default, the new settings are off in order to not change the current behaviour.

The patch implements the following tickets:

- #4885
- #12236
- #19813
- #24049

Hello, this is a very good addition, i tried to apply the patch but my company is argentitnian so we have the spanish version, can anybody help me?, because this patch modify the **en**.yml file and in my case i have to modify the **ES**.yml file.

I can't wait until the 3.4 version comes...

i have redmine 3.2.2 so, i wait for your answer.

PD: it will be perfect if the patch allows to choose witch type of issue i want to make it mandatory..

If anybody can make the patch for redmine 3.2.2 spanish version and allows me to choose the type of issue i want to make it mandatory i will apreciate it so much.

Thanks a lot i wait for your answers

(Sorry for my english)

I tried to apply the patch in a version 3.2.5-1 (Since I can't just upgrade to 3.4)

```
/home/redmine/redmine$ patch -p1 < settings_to_make_issue_id_comment_fields_mandatory_v2.patch
```

But I have 3 fails:

```
patching file app/helpers/settings_helper.rb
patching file app/models/time_entry.rb
patching file app/views/settings/_timelog.html.erb
patching file app/views/timelog/_form.html.erb
Hunk #1 FAILED at 12.
1 out of 1 hunk FAILED -- saving rejects to file app/views/timelog/_form.html.erb.rej
patching file config/locales/en.yml
Hunk #1 FAILED at 448.
1 out of 1 hunk FAILED -- saving rejects to file config/locales/en.yml.rej
patching file config/settings.yml
Hunk #1 FAILED at 279.
1 out of 1 hunk FAILED -- saving rejects to file config/settings.yml.rej
patching file test/unit/time_entry_test.rb
```

Is it supposed to be applyable on a 3.2.5-1 version ?

No, it was never tested against 3.2.* or 3.3.* versions.
