Redmine - Defect #24719

New subtask link should not be shown when parent_id field is disabled for the tracker

2016-12-31 02:05 - Go MAEDA

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	

Description

Users cannot create subtasks when parent_id field is disabled for the tracker.
But current versions of Redmine shows new subtask link even if the field is disabled.

I think the link should not be shown when parent_id field is disabled.
Showing the link without respect to disabled parent_id may causes confusion like #24606.

History

#1 - 2016-12-31 02:05 - Go MAEDA

- Related to Defect #24606: parent task id never filled in the field 'parent_task' added

#2 - 2016-12-31 09:30 - Sebastian Paluch

When Parent Id is disabled it means that an issue cannot have parent task. It does not mean that it cannot have subtasks of different tracker type that does have Parent Id enabled.

#3 - 2016-12-31 13:55 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Invalid

Sorry, I misunderstood. I withdraw this issue.
Thank you for pointing it out.
