

Redmine - Defect #24777

Non-www version of redmine.org does not work

2017-01-08 01:06 - Kenn Wilson

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Website (redmine.org)	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description			
Typing just "redmine.org" to get to this site returns a "403 Forbidden" error.			
Steps to reproduce:			
1. Click http://redmine.org			
Expected behavior: Site loads or redirects to www.redmine.org			
This affects the non-SSL version only. The following links do work correctly:			
- http://www.redmine.org/			
- https://www.redmine.org/			
- https://redmine.org/			
Suggested fix: Redirect all of the above to https://www.redmine.org/ . This will fix both the www and non-www URLs, while ensuring all visitors use SSL.
