

## Redmine - Defect #24822

### Start Date, Due Date, percent complete

2017-01-12 22:30 - Mark Wintch

**Description**

Environment:

Redmine version	3.3.0.stable
Ruby version	2.1.8-p440 (2015-12-16) [x64-mingw32]
Rails version	4.2.6
Environment	production
Database adapter	SQLServer

SCM:

Filesystem	
------------	--

Redmine plugins:

redmine_agile	1.4.1
---------------	-------

I have been researching all day looking for a solution to this or to see if it has already been reported. That research led me to believe that the issue has been reported and listed as fixed in Version 3.1.0. I am running Redmine version 3.3.0 and am getting the same defect.

From my research it seems that I am experiencing Defect [#10769](#).

The defect I am reporting is that when I have a Tracker that is the parent issue with a set Start Date I can edit said start date.

If, I add subtasks to that parent task however AND change the date of any subtasks then any parent tasks above that subtask get their start date modified to the start date of the affected subtask. Then, if one attempts to edit the Start Date, Due Date or Percent Complete none of those fields are displayed in any parent tasks.

In fact, I can have a working parent task, and the moment I attach a subtask to it the Start and Due Date as well as percent done all disappear from the edit screen.

Thank you.

Mark

### History

#### #1 - 2017-01-12 22:37 - Mark Wintch

- Status changed from New to Resolved

I finally found the solution that was right in front of my face. Thank you for all of the work you do. Should anyone else come across this in there research, you have to go into Administration---->Settings---->Issue tracking Tab and change the Parent task attributes from calculated from subtasks to independent of subtasks. That is what resolved my issue in version 3.3.0

#### #2 - 2017-01-13 01:13 - Go MAEDA

- Status changed from Resolved to Closed

- Resolution set to Invalid

- Affected version deleted (3.3.0)

Thank you for the feedback. I am closing this issue.  
The feature was added in Redmine 3.1.0 ([#5490](#)).

#### #3 - 2017-02-09 11:29 - Toshi MARUYAMA

- Description updated
