<b>Description</b>			
<p>"Jump to project" drop down is not displayed when the user does not belong to any project. But I think it should be always displayed.</p> <p>In upcoming Redmine 3.4.0, the drop-down will have two new feature, incremental search and "all projects" link (<a href="#">#23310</a>). These features are very useful even if the user does not belong to any project, so the drop-down should be always displayed.</p>
