Redmine - Feature #25012

Allow both '.' and ',' decimal symbols for input of float custom fields

2017-02-06 11:26 - Stephane Evr

Resolution:	Duplicate			

Description

In Redmine, inputting decimal values such as "3.15" of "3,15" in either "Estimated time" or "Spent time" fields is correctly interpreted and converted back to the proper float format: 3.15 .

I think this behaviour should also be applied to float custom fields.
