Description			
There is no information in the documentation (Rest Projects) that only 25 projects will be returned on GET /projects.json without 'limit' parameter, which also isn't mentioned as an available parameter.			

History

#1 - 2017-02-07 17:30 - Holger Just

This is described in the general API documentation at [Rest API](#). Pagination is not specifically mentioned in the API docs for projects since the concept applies to about all lists in Redmine.
