Redmine - Defect #2511

Overlapping area in Issue entry

2009-01-14 21:32 - Karl Heinz Marbaise

Status:	Closed	**Start date:**	2009-01-14
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Issues	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	

Description

Hi, i have observed a little problem with the related revisions and code tags in issue text. (Mac OS 10.5.6; Safari Browser). The code tag in the History column and the text in the associated revisions is overlapping the text of the associated revision. See the attached screen shot.

History

#1 - 2012-10-28 19:37 - Daniel Felix

I just tested it with the latest safari. This misbehaviour doesn't appear anymore with current trunk 10742. Maybe this ticket could be closed?

#2 - 2013-05-11 03:25 - Jean-Baptiste Barth

- Status changed from New to Closed

- Resolution set to Fixed

Confirmed, it's fixed at least for Safari, Chrome, and Firefox on OSX. I close this issue.
