Target version:		Affected version:	
Resolution:	Invalid		
Description			
Hello, I am trying to upgrade redmine version 2.5.2-devel to 3.2-stable. For not destroying my database in production i've installed the version 2.5.2-stable of redmine in my server test. Everything is working correctly (except mail I haven't configured). In this version (2.5.2-devel) there is two things different from 2.5.2-stable : - demandes_st_load_test : i don't know what kind of table it is - is_public field is added that doesn't exist in the table of the version 2.5.2-stable (table queries) I dump the sql file from the production and imported it in the database of my test server. Then i downloaded the version of redmine 3.2-stable, I configured it etc.. But when I try this command line : <pre>bundle exec rake db:migrate RAILS_ENV=production</pre> It fails saying this : <pre>bundle exec rake db:migrate RAILS_ENV=production 20130602092539 CreateQueriesRoles: migrating ===== -- create_table(:queries_roles, {:id=>false}) rake aborted! StandardError: An error has occurred, all later migrations canceled:</pre> Mysql2::Error: Table 'queries_roles' already exists: CREATE TABLE `queries_roles` (`query_id` int(11) NOT NULL, `role_id` int(11) NOT NULL) ENGINE=InnoDB <pre>/var/lib/gems/2.1.0/gems/mysql2-0.3.21/lib/mysql2/client.rb:80:in `__query' /var/lib/gems/2.1.0/gems/mysql2-0.3.21/lib/mysql2/client.rb:80:in `block in query' /var/lib/gems/2.1.0/gems/mysql2-0.3.21/lib/mysql2/client.rb:79:in `handle_interrupt' /var/lib/gems/2.1.0/gems/mysql2-0.3.21/lib/mysql2/client.rb:79:in `query' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_mysql_adapter.rb:309:in `block in execute' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_adapter.rb:484:in `block in log' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_adapter.rb:484:in `instrument' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_adapter.rb:478:in `log' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_mysql_adapter.rb:309:in `execute' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/mysql2_adapter.rb:231:in `execute' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract/schema_statements.rb:222:in `create_table' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract_mysql_adapter.rb:474:in `create_table' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:665:in `block in method_missing' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:634:in `block in say_with_time' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:634:in `say_with_time' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:654:in `method_missing' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:416:in `method_missing' /usr/share/redmine3/db/migrate/20130602092539_create_queries_roles.rb:3:in `up' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:571:in `up' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:611:in `exec_migration' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:592:in `block (2 levels) in migrate' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:591:in `block in migrate' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/connection_adapters/abstract/connection_pool.rb:292:in `with_connection' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:590:in `migrate' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:768:in `migrate' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:998:in `block in execute_migration_in_transaction' /var/lib/gems/2.1.0/gems/activerecord-4.2.7.1/lib/active_record/migration.rb:1046:in `ddl_transaction'</pre>

Tasks: TOP => db:migrate
(See full trace by running task with --trace)

```

I have also tried to create a fresh new database and the command line is working, but when i try to import the data of the database of course there is a lot of rename field and it fails.

I've been trying for quite a while now and i don't get it. Do you know where the problem is ?

Thanks,
Best Regards,
Martin C.
