Add new option "Within period" to date filter types (along with "Today", "This week", "Less than days ago" and ect). When user selected "Within period" there should be 2 date editors - "from" and "to". Let's treat both fields as optional so user can fill all possible combinations ("from+to", "from" only or "to" only).

Note, "from" and "to" should

- be inclusive
- ignore time difference in DB
  - "from=01/12/2008" means "from=01/12/2008 00:00:00"
  - "to=02/12/2008" means "to=02/12/2008 23:59:59"

These also make all time filters timezone-aware, i.e. if X.created_at = yesterday 00:00 or yesterday 23:59 in the same timezone

'1 days ago' filter should show issue X.

Currently redmine.org does have problems with this, e.g. 'updated at 0 days ago' shows issues updated at both today and yesterday if I'm in Alaska. This accuracy requires switching to Rails timezones support, see:

http://github.com/artemv/redmine_tt/commit/ee3a1545fb6b5a211c2947c0f66bb8402a388f91
http://github.com/artemv/redmine_tt/commit/244408dbb277cb183ad48d68b7a52b5baa5d19
http://github.com/artemv/redmine_tt/commit/a2831f2a0a0f5948c558398057cb6c29e9f7e6

These are based on modified r1783.

#3 - 2009-01-20 11:29 - Artem Vasiliev

That Rails timezone support is summarized in #1705 actually

#4 - 2009-01-22 11:49 - Artem Vasiliev

I've just implemented it for http://github.com/artemv/redmine_tt fork, see commits:

Another tweak to it: http://github.com/artemv/redmine_tt/commit/a8f2f4ced8d66dc0def3863f785d85d100f

#5 - 2009-02-05 18:06 - Curtis Stewart

+1

I just had two different requests for filtering issues within a data range. We have made due with exporting to csv and then removing the extra items, but that is not as convenient. I would like to see this patch, or something similar, incorporated into the main releases.

#6 - 2011-07-19 10:13 - Etienne Massip

- Category set to Issues

I think this has been committed in trunk for version:1.3.0.

#7 - 2011-10-27 13:30 - Nayuta Taga

+1

Please tell me the committed revision.
I want to apply it to my local Redmine.

You should try to merge r6213, r6216, r6217, r6226, r6227, r6228, r6229, r6256, r6258, r6264 and r6265.

#9 - 2011-10-27 15:10 - Etienne Massip
- Status changed from New to Closed
- Resolution set to Duplicate

Closed as duplicated by #6954 which has been committed for version:1.3.0.

#10 - 2011-10-28 06:10 - Nayuta Taga
