Redmine - Defect #25486

Repository history is not updating

2017-03-31 11:56 - Maxim Krušina

Status:	Needs feedback		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	3.3.1

Description
Hi, on just one project we have something wrong. When I go Git repo overview: https://ourredmine/projects/ourproject/repository I see al the changes (like file XY modified 2 hours ago etc.) When I click on revisions: https://ourredmine/projects/ourproject/repository/revisions i see last revision somewhere in 2016 Also, when we push to repository something with comment referencing the ticket, it's not parsed and commit is not showing on the ticket's page. Other projects with git repos are working just great. Any clue? Thanx!

History

#1 - 2017-03-31 14:14 - Toshi MARUYAMA

- Category set to SCM

#2 - 2017-05-30 14:06 - [Desperados]

similar problem, but my entire repository is stopped from 2 months (both repository and revisions)
this issue has happened many times to me, everytime I delete repository and recreate, redmine works for a long time (even a couple of hours) and rebuild it
then, it works for a while (a couple of months) and then hangs again

#3 - 2017-05-30 14:12 - Toshi MARUYAMA

- Status changed from New to Needs feedback

Please describe your environment to see submissions.

#4 - 2017-09-20 11:09 - [Desperados]

mysql-server-5.7
ruby2.3
git 1:2.7.4-0ubuntu1.1

"ruby bin/about" output:
