

Redmine - Defect #2550

Project overview page shows disabled trackers

Resolution:	Fixed		

Description

Create a project and disable all but one tracker (e.g. support and feature disabled, bug enabled). Note that the page overview will still list the number of support and feature tickets ("0 open on 0" for both). These shouldn't be displayed at all, yeah?

Mm... true. Archived, but there. Not sure if archived projects should affect this, but that's a design choice, not a bug, eh?
