

Redmine - Patch #25526

Revert API change in spent_hours field in issue#show

2017-04-05 15:29 - Holger Just

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:	3.2.6		
<div>Description</div> <p>When preloading the spent_hours of issues (as e.g. done for #20661, they default to 0 instead of the previous default 0.0. This results in a change of the issue#show API which now also returns an Integer instead of a Float. Previously (in Redmine 3.2), the API used to return the data the following way:</p> <pre>{ "issue": { "id": 15, ... "spent_hours": 0.0, ... } }</pre> <p>While later versions (including the current trunk) return them as follows:</p> <pre>{ "issue": { "id": 15, ... "spent_hours": 0, ... } }</pre> <p>This appears to break strict API clients which expect a float there. In our tests, this change appears to break the current Android version of RedminePM, probably due to some internal type exceptions. The attached patch was extracted from Planio and fixes this behavior. With it, we follow the previous behavior of always sending Floats.</p>
