

Redmine - Patch #2559

Copy on Move option

2009-01-22 12:05 - Ewan Makepeace

Status: Closed	Start date: 2009-01-22
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description This patch implements feature request #1847 . How it works: 1. When you select Move on an Issue page, you are given an additional checkbox "Move a Copy": Screenshot_15.jpg 2. If this is selected then the original issue is left where it is but is copied to the selected project. 3. This is useful when you want to place similar issues in several projects.
