

Redmine - Patch #256

Hide version field in issue update

2008-01-26 17:54 - Thomas Löber

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
If a project doesn't define a version the version field is not displayed when adding or editing an issue.			
This patch adds this functionality also for the "inline" issue update: app/views/issues/_update.rhtml			

History

#1 - 2008-03-05 19:41 - John Goerzen

The file this patch modifies no longer exists on trunk, and the code being replaced couldn't be found either.

#2 - 2008-03-05 20:44 - Jean-Philippe Lang

- Status changed from New to Closed

Actually, this fix is applied in current trunk.
The version field is not displayed if no version is defined.
