Ok, I saw the guide in French and thought you disseminate useful in Portuguese.

Thanks!

Well, we have completed a full translation of the Redmine Guide to Portuguese. This translation is available in latex format on the following web site: <http://softifes.andifes.org.br/projects/redmine-docs> (belonging to the Brazillian Federal Univesities). This project can also be downloaded by anonymous svn using: \$ svn checkout <https://svn.cercomp.ufg.br/pub/redmine-docs>

We believe it would be very useful for the Brazillian community to have a direct link from the Redmine web site to that one. Therefore, could you do it for us?

Is this translation still hosted somewhere so we could add the remote link in [Guide](#) ?

Hi,

Is versioned in <https://svn.cercomp.ufg.br/pub/redmine-docs>, but not synchronized with current. Jean-Philippe not thought important translate guide to portuguese, is very difficult keep translated sync.

My suggestion would form in remote wiki translation suggestions, this process would wonderful. This is possible?

Always grateful!
