Do you use a third-party theme?

Please change "UI theme" setting (you can find the setting in Admin > Settings page) to "Default" and try again.

I tried all the built-in themes including default, they all had the same problem. I then tried a 3rd party theme (circle) to see if that fixed the issue, but it did not.

Did you clear your browser cache? I recommend an "Empty Cache and Hard Reload" if you're using Chrome browser.
