

Redmine - Defect #25791

Bypass Tracker role-based permissions when copying issues

2017-05-08 22:13 - Shane Coronado

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues permissions	Estimated time:	0.00 hour
Target version:	3.3.4	Affected version:	3.3.2
Resolution:	Fixed		
Description Not sure if intended: We use the permission settings for our roles. However, our Developer role is able to create an issue that the role does not have permission to create. This was done by Copying said issue and not changing the Tracker field. By leaving the Tracker field blank, the user is able to create an issue that bypasses the role's permissions.			

Associated revisions

Revision 16569 - 2017-05-27 10:34 - Jean-Philippe Lang

Check tracker permissions when copying an issue (#25791).

Revision 16616 - 2017-06-06 22:54 - Jean-Philippe Lang

Merged r16569 (#25791).
