History

#1 - 2008-01-29 06:46 - Panta Rhei

new patch including Michael's changes.

this patch changes the description on activities page.
instead of linking the complete comment the author is now
linked. format: link([author]) [time] [revision]

so you have all important informations at a glance.
so much clearer, for me at least.

should only effect repository changes.

this patch supersedes all previous attached and posted patches.
