

# Redmine - Feature #2595

## Issue report for all projects

2009-01-27 00:05 - Brad Beattie

<b>Status:</b> New	<b>Start date:</b> 2009-01-27
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> UI	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> Candidate for next major release	
<b>Resolution:</b>	
<b>Description</b>	
Currently, we can view /reports/issue_report/PROJECTNAME, but /reports/issue_report results in a 404. Everything on this page is applicable to all projects, save for Version and Category, which likely doesn't carry between projects. These could, for this page, be replaced by Project, yeah?

- File *2595-without-tests.patch* added

I think that it would be very useful if I could see the issue summary page of all redmine projects.

So, I propose a patch that aroows you to access issues/reports without :project\_id.

As below screenshots, You select projects -> issues -> summary to access the issue summary page for all projects.

issues\_reports.png

#### #2 - 2019-02-13 09:49 - Go MAEDA

- Target version set to Candidate for next major release

#### #3 - 2020-03-08 12:30 - Go MAEDA

- Duplicated by Feature #2415: Global issue\_report without project specific information added
