

Redmine - Defect #26004

Settings / Issue tracking: Can't move issue column between available and visible

2017-05-20 09:23 - Roderick Gadellaa

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues list	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.3
Resolution:	Cant reproduce		
Description			
Under Settings / Issue tracking / Default columns displayed on the issue list (screenshot attached), I try to move a issue column from available to visible but it doesn't work.			
When I open the dev console I see a javascript error:			
<pre>/redmine/settings:446 Uncaught ReferenceError: moveOptions is not defined at HTMLInputElement.onclick (/redmine/settings:446)</pre>			
Information:			
Environment:			
Redmine version	3.3.3.stable		
Ruby version	2.1.5-p273 (2014-11-13) [arm-linux-gnueabi]		
Rails version	4.2.7.1		
Environment	production		
Database adapter	MySQL2		
SCM:			
Subversion	1.8.10		
Git	2.1.4		
Filesystem			
Redmine plugins:			
periodictask	3.2.1		
redmine_checklists	3.1.5		
redmine_issue_badge	0.0.6		
redmine_issue_completion	0.0.2		
redmine_issue_templates	0.1.5		

History

#1 - 2017-05-20 09:26 - Roderick Gadellaa

Since this seems to be a javascript issue and that runs in a browser it's probably also useful to provide some info on my client: Windows 10 x64, Chrome 58.0.3029.110 (64-bit)

#2 - 2017-06-12 18:44 - Toshi MARUYAMA

- Status changed from New to Needs feedback

I cannot reproduce on vanilla Redmine [3.3.3](#) and CentOS 7 google-chrome-stable-59.0.3071.86-1.x86_64.

#3 - 2017-06-30 22:14 - Swizzy G

I Experienced this myself recently, the issue is likely that you have a cached version of the script, try doing a Ctrl + F5 on the page to force chrome to reload all scripts etc. from the server rather than attempt to using a locally cached version

#4 - 2024-07-20 09:48 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Cant reproduce
