

Redmine - Defect #26016

Redmine is slow to some users

2017-05-22 18:08 - René Barbosa

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Performance	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.0
Resolution:			
Description We updated our Redmine environment to the version 3.3.0 and some users are complaining about slowness in their activities. We found that just some users (the ones with 1000+ projects) are with this problem. Users with ~600- projects are not affected. I've attached 2 files at this issue, they're a Redmine debug log of an user with several projects (slow.log) and an user with few projects (slow.log). The difference is really notable.

History

#1 - 2017-05-22 18:25 - René Barbosa

Environment:

Redmine version: 3.3.3.stable
Ruby version: 2.1.10-p492 (2016-04-01) [x86_64-linux]
Rails version: 4.2.7.1
Environment: production
Database adapter: MySQL2

SCM:

Filesystem

Redmine plugins:

no plugin installed

#2 - 2017-05-22 19:21 - Toshi MARUYAMA

- Related to Feature #19102: Redmine doesnt scale with large amount of projects added

#3 - 2017-07-03 19:38 - René Barbosa

It looks like the issue was fixed in 3.4.0.

#4 - 2017-07-03 20:16 - Mischa The Evil

- Status changed from New to Closed

It looks like the issue was fixed in 3.4.0.

That is possible as 3.4.0 includes several performance improvements. I'll close this issue but keep [#19102](#) open as that one includes more cases of multiple users. I'd like to see their feedback before closing that one.
Thanks for the feedback.
