

Redmine - Defect #2602

<pre> tags create links instead of displaying text

2009-01-27 19:47 - Lane Roathe

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Duplicate	
Description My understanding is that the <i>pre</i> tags should not parse any markup tags, but given a wiki page reference in a <i>pre</i> section it will display as a link instead of as the source text. Like so: With spaces added to avoid link creation: example link text: [[gui GUI Proposal]] Without spaces this is displayed: example link text: [[gui GUI Proposal]]	
Related issues: Is duplicate of Redmine - Defect #1288: Unable to past escaped wiki syntax in... Closed 2008-05-22	

History
