Target version:		Affected version:	3.1.3
Resolution:	Invalid		
Description I found an issue in my project during testing , and it was fixed then verified/closed by me. But same issue again observed in next build. So, want to re-open existing bug, but there were no option for re-open that issue. And that status field was mandatory, without fill anything there, i will be able to update an issue. Attached snapshot for detailed Information!!
