Firefox driver in 2.53.4 not working with Firefox 48

<https://github.com/SeleniumHQ/selenium/issues/2559>

**#3 - 2017-06-27 09:57 - Pavel Rosický**

This is very unsafe API

```
page.driver.browser.manage.window.resize_to(1024, 900)
```

it also doesn't work with a Chrome driver. It could be avoided by passing desired capabilities directly for each driver, but it's quite problematic to set up a custom resolution reliably right now.

Btw: phantomjs won't be supported anymore, see:

Thanks Pavel for updating the ticket.
