Resolution:	Invalid		

Description

Hello. I installed redmine on ubuntu 14.04 following the instructions given [[<https://gist.github.com/wenzhixin/4650802f442d020cd332>]].

I have a redmine service running -

```
someoe@machine:~$ sudo start -v redmine
redmine start/running, process 19402
```

I am willing to run redmine behind nginx and I copied the contents in /usr/share/nginx/html here it is -

```
someone@machine:~$ ls /usr/share/nginx/html/
50x.html  index.html  redmine  www
```

Still I am not able to see redmine home page or management console.

History

#1 - 2017-05-30 06:37 - Ashay Maheshwari

Only thing I can see is the index page listing all the contents of redmine directory.Please help !!

#2 - 2017-05-30 07:17 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Invalid

Please use forum or ask Debian Ubuntu team.
