Description																															
<p>Hi,</p> <p>I've just upgraded to 3.3.3 and I have a very strange side-effect. The scrollbar is missin on some pages (wiki, issues) etc... it happens only in google chrome. In FF it looks right. I use a different theme but with the original one is the same issue.</p> <p>Any ideas? See screenshots.</p> <p>Environment:</p> <table><tr><td>Redmine version</td><td>3.3.3.stable.16584</td></tr><tr><td>Ruby version</td><td>2.2.3-p173 (2015-08-18) [x86_64-li</td></tr><tr><td>Rails version</td><td>4.2.7.1</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>Mysql2</td></tr></table> <p>SCM:</p> <table><tr><td>Subversion</td><td>1.9.3</td></tr><tr><td>Git</td><td>2.7.4</td></tr><tr><td>Filesystem</td><td></td></tr></table> <p>Redmine plugins:</p> <table><tr><td>redmine_agile</td><td>1.4.3</td></tr><tr><td>redmine_ckeditor</td><td>1.1.2</td></tr><tr><td>redmine_impersonate</td><td>0.10.0</td></tr><tr><td>redmine_lightbox2</td><td>0.3.2</td></tr><tr><td>redmine_per_project_formatting</td><td>0.0.3</td></tr><tr><td>wiki_issue_fields</td><td>0.5.1</td></tr></table>				Redmine version	3.3.3.stable.16584	Ruby version	2.2.3-p173 (2015-08-18) [x86_64-li	Rails version	4.2.7.1	Environment	production	Database adapter	Mysql2	Subversion	1.9.3	Git	2.7.4	Filesystem		redmine_agile	1.4.3	redmine_ckeditor	1.1.2	redmine_impersonate	0.10.0	redmine_lightbox2	0.3.2	redmine_per_project_formatting	0.0.3	wiki_issue_fields	0.5.1
