I also have this problem in my Redmine.

1. All looks good for administrator, for other user overview column shows all zeros.

2. Let's see there are a main project "A", a sub project "B", the user can access these two project. Now, in the "A" project's overview, some number shows, but I found the number is the number of issues in sub project "B". And in the project "B", the overview column shows all zeros.

3. The information of my Redmine as the attachment

Thanks a lot.

Do you use clean Redmine?

Your Redmine version is 3.2.1 and Rails version is 4.2.8.

But Rails version of Redmine 3.2.1 is 4.2.5.2.

#### #7 - 2017-07-08 03:47 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Duplicate

This problem is reproducible on Redmine 3.4.0. See [#26376](#) for the detail.  
I am closing this issue as a duplicate of that issue. Thank you for reporting this problem.
