

Redmine - Defect #26087

<pre></pre> with included URL is displayed wrongly

2017-06-02 07:59 - Bernhard Donaubaer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.1
Resolution:	Invalid		
Description			
If I enter this textile line			
<pre>svn co https://intra.bayerwald-fenster.de/svn/intra/yucatan_conturex_anbindung/trunk conturex</pre>			
in the wiki it is displayed as			
<pre>svn co https://intra.bayerwald-fenster.de/svn/intra/yucatan_conturex_anbindung/trunk conturex</pre>			
on the resulting page.			
BTW: If i enter a space before the			
<pre> tag it is displayed as intended.</pre>			

History

#1 - 2017-06-02 08:09 - Bernhard Donaubaer

Ok, here is my bug report once again, but now readable. Parts of my bug report were interpreted by Redmine as formatting tags.

If I enter this textile line

```
svn co https://intra.bayerwald-fenster.de/svn/intra/yucatan_conturex_anbindung/trunk conturex
```

in the wiki it is displayed as

```
svn co <a class="external" href="https://intra.bayerwald-fenster.de/svn/intra/yucatan_conturex_anbindung/trunk">https://intra.bayerwald-fenster.de/svn/intra/yucatan_conturex_anbindung/trunk</a> conturex
```

on the resulting page.

BTW: If i enter a space before the pre tag it is displayed as intended.

#2 - 2017-06-29 06:11 - Toshi MARUYAMA

- Category set to Text formatting

- Status changed from New to Needs feedback

Please explain more details.

What do you expect and result?

#3 - 2017-06-30 07:26 - Bernhard Donaubaer

- File input.png added

- File wrong.png added

- File right.png added

Ok.

I entered this at the beginning of a line:

```
<pre>svn co https://my.tiny.url/bla</pre>
```

I expected this result:

```
svn co https://my.tiny.url/bla
```

But I got this:

```
svn co <a class="external" href="https://my.tiny.url/bla">https://my.tiny.url/bla</a>
```

#4 - 2017-06-30 07:39 - Toshi MARUYAMA

- File pre-https.png added

I cannot reproduce on vanilla Redmine [3.3.3](#).

Edit

Notes

```
svn co https://my.tiny.url/bla
```

#5 - 2017-06-30 10:04 - Bernhard Donaubaer

Hm?

Obviously this problem does not exists more recent version or one of the plugins causes this problem.

Should we close this ticket or do some further investigations?

#6 - 2017-07-18 18:46 - Toshi MARUYAMA

- Status changed from Needs feedback to Closed

Please reopen if you have problem on recent version vanilla Redmine.

#7 - 2017-07-18 18:46 - Toshi MARUYAMA

- Resolution set to Invalid
