Redmine - Feature #26128

EmailReminder problem

2017-06-09 09:32 - Cristian PP

Priority: Normal Assignee: Category: Category: Target version: Resolution: Invalid Description Invalid Hi all, i'm trying to set up an email reminder when issue ovedr command say me that bundle is a command not found. So i to cd /opt/bitnami/apps/redmine/htdocs bin/rake redmine:send_reminders days=0 RAILS_ENV="prod but it doesn't go anyway. Now it say me: /usr/lib/ruby/1.9.1/rubygems/custom_require.r. from /usr/lib/ruby/1.9.1/rubygems/custom_require.r. from /usr/lib/ruby/1.9.1/rubygems/custom_require.r.	ry to make it with a script su luction"	uch as this:
