Target version:		Affected version:	
Resolution:	Invalid		

Description

Hello!

3 year my Redmine work, but now I get this messages at start redmine-deamon:

```
[root@support ~]# /etc/init.d/redmine start
/etc/init.d/redmine: line 33: kill: (2395) - No such process
/usr/local/rvm/gems/ruby-1.8.7-head/gems/rack-1.6.4/lib/rack/multipart.rb:10: warning: already ini

tialized constant MULTIPART_CONTENT_ID
master failed to start, check stderr log for details
```

I not update my programs and this Redmine installed other man.

My Rudy is

```
[root@support redmine]# ruby -v
ruby 1.8.7 (2014-01-28 patchlevel 376) [x86_64-linux]
[root@support redmine]# type ruby
ruby is hashed (/usr/local/rvm/rubies/ruby-1.8.7-head/bin/ruby)
```

But other versions I can't get:

```
[root@support redmine]# ruby bin/about
/var/www/redmine/config/boot.rb:4:in `require': no such file to load -- bundler/setup (LoadError)
    from /var/www/redmine/config/boot.rb:4
    from /var/www/redmine/config/application.rb:1:in `require'
    from /var/www/redmine/config/application.rb:1
    from /var/www/redmine/config/environment.rb:2:in `require'
    from /var/www/redmine/config/environment.rb:2
```

```
from bin/about:4:in `require'
from bin/about:4
```

OS CentOS 6.6
PostgreSQL 9.3

What to hiping with this Redmine? How to fixed this "already initialized constant"

History

[root@support-rst redmine]# bundle env
Environment

```
[root@support redmine]# bundle env
Bundler 1.10.5
Rubygems 2.4.8
Ruby 1.8.7 (2014-01-28 patchlevel 376) [x86_64-linux]
GEM_HOME /usr/local/rvm/gems/ruby-1.8.7-head
GEM_PATH /usr/local/rvm/gems/ruby-1.8.7-head:/usr/local/rvm/gems/ruby-1.8.7-head@global
RVM 1.26.11 (latest)
Git 1.7.1
rubygems-bundler (1.4.4)
```

#3 - 2017-06-21 15:04 - Holger Just

The last version of Redmine to still support Ruby 1.8.7 was Redmine 2.6. Ruby 1.8.7 is not maintain since about 3 years now, Redmine 2.6 is unmaintained for about a year now. About everything in your Ruby stack is seriously outdated and not maintained anymore.

Please update to a newer version of Ruby and Redmine.

#4 - 2017-06-21 15:31 - Toshi MARUYAMA

- *Status changed from New to Closed*
- *Resolution set to Invalid*
