<b>Description</b> Hey Guys,  Love the work. I can't get enough of this software it's easily the best.  I was wondering if it would be possible to be able to have a combo box of some sort as the format for the "Custom Fields" section when dealing with "Issues". The reason that I ask is: At the moment I choose "List" but that means I am only able to select one value from the drop down. What if I wanted to select multiple values from the drop down?  Thanks in advance.
