The problem is, I update the issue update text but the update datetime don't be updated. It continues to say "updated 1 week ago" for example. Is not that a problem?

"issue update text" means issue note?
If so, the problem has already been reported as [#16256](#).

Yes, it is. Thanks.

I wonder that this issue should be regarded as a problem and solved? I did not see this problem in the road map.

Maybe no one is working on the issue for now, unfortunately. I hope that someone will write a patch to fix it.
I am closing this issue as a duplicate of [#16256](#). Thank you for your report.
