Description

Hi, after upgrading to 3.4.0 (a few minutes ago, thanx for release!!!) I found that our projects are somehow listed in header. I tried to disable all the plugins - it didn't helped. Next, I tried to play with different Themes and found that:

- Affected
 - Alternate
 - Classic
 - A1 (RedmineUp)
 - Circle (RedmineUp)
- Not affected
 - Default

Can I somehow help a liittle bit more?
