Redmine - Defect #26321

Activity view should not show raw text

2017-07-03 10:52 - Robert Schneider

Status: New Start date:

Priority: Normal Due date:

Assignee: % Done: 0%

Category: Activity view Estimated time: 0.00 hour

Target version:

Resolution: Affected version:

Description

E.g., when one writes a comment, in the activity view the line with the description (which is in tags) should be rendered somehow and not just shown as plain text.

It doesn't need to be or it sould not be textile/markdown rendering, since I wouldn't expect headings or clickable links. Just strip off any formatting, show only the text of links, remove images, ... I don't know what else has to be done.
