

Redmine - Patch #26341

Add useful details to error message when a template is missing

Description

When a template is missing, this message is added to the logs:

```
Missing template, responding with 404
```

We could complete this message with useful details. For instance:

```
Missing partial issues/_list_simple with {:locale=>[:fr, :en], :formats=>[:html], :variants=>[], :handlers=>[:erb, :builder, :raw, :ruby, :rsb]}. Searched in:  
* "/redmine/app/views"
```

Here is my current patch:
