Target version:		Affected version:	3.4.0
Resolution:	Invalid		
Description Hi, after upgrading I found, that I can see in issue list just default amounts: (1-38/38) Per page: 25, 50, 100 But in config we have this: Objects per page options: 25,50,100,200,500 Any clue? I just found that there were spaces in the config field: 25, 50, 100, 200, 500 I tried to remove them but it still doesn't work: 25,50,100,200,500
